

Script 5: 3 things AI will never clip

Daily #2

0:45

FORMAT	Founder to camera, single take, listicle with finger count
HOOK STYLE	Polemic — clear contrarian take

[HOOK — 0:00-0:05] *To camera, direct.* AI can clip ninety-five percent of your video. The other five percent needs a human.

[1 — 0:05-0:13] *Count on fingers.* Inside jokes. AI doesn't get callbacks to a video you posted three months ago.

[2 — 0:13-0:23] Tone-only moments. A pause. A sigh. A look. No words to transcribe.

[3 — 0:23-0:33] Live reactions. When something surprises even *you* on camera.

[PAYOFF — 0:33-0:42] *Lean in.* That's why we're building a clipper marketplace. Real humans for the five percent.

[CTA — 0:42-0:45] Relativclips dot com.
