

Script 13: Your brand is invisible without clipping

B2B Daily #1 **0:45**

FORMAT	Founder to camera, fast pace, single take
AUDIENCE	Brand marketers who feel stuck
HOOK STYLE	Blunt pain → simple comparison

[HOOK — 0:00-0:05] *To camera, blunt.* Your brand spends fifty-thousand a month on ads. Nobody remembers it.

[BODY — 0:05-0:30] A creator spends two hours on a video. Posts one clip. Gets two-million views. No ad budget. No agency. Just taste. The math isn't close. Ads interrupt. Clips are content. Interruptions get skipped. Content gets shared.

[CTA — 0:30-0:45] *Forward, confident.* This is the new playbook. Brands that figure it out will outpace the ones that don't. Clipping isn't a tactic. It's the new ad. Link in bio.
